Diabetes Specialty Care Service Information

To Register, or for more information, please call: 1-877-314-6997

Diabetes Specialty Care is Available in Specific Communities Only

Blood Glucose Monitoring – Continuous Glucose Monitoring System (CGMS)

Appointment Information and Objectives

In the first appointment you will learn:

- Instruction on chosen CGMS device
- Insertion of sensor and connection of transmitter
- Individual assessment with registered nurse

In the second appointment you will learn:

- Disconnect and download a device
- Review of data recovered from device
- Recommendations for management options

Who is the appointment for?

- ✓ Anyone with diabetes who is having difficulty adjusting their medications for optimal blood glucose control
- ✓ Anyone who wants to rule out night time hypoglycemia (low blood sugars), or anyone who is at risk for hypoglycemia
- ✓ A sensor will need to be purchased from your pharmacy prior to the appointment

Note: Available in specific communities only.
Please call 1-877-314-6997 to register

Diabetes - Individual Care Appointments

Appointment information:

Information and care as needed for but not limited to:

- Managing diabetes with Kidney (nephropathy) concerns
- Managing diabetes in or prior to pregnancy
- Managing diabetes with insulin pumps
- Managing diabetes with other conditions (celiac disease & gastroparesis etc)
- Insulin management for travel and surgical procedures
- Managing hypoglycemia with or without diabetes

Who are these appointments for?

- ✓ Any **child or adult** with diabetes who requires further care beyond the group sessions and/or in addition to the care available through their family physician

Note: Available in specific communities only.
Please call 1-877-314-6997 to register

Diabetes Specialty Care - Service Information ... Continued

Eating Well with Diabetes: Ask a Dietitian

One, 2 hour session with drop in available (please register at the front desk if dropping in)

Class Information and Objectives

Did you see something about nutrition in the news or in a magazine that you wanted the latest research about? This session will give you the opportunity to discuss these topics with a Registered Dietitian.

The content of this session will be based on the participants' questions, but some topics may include:

- Are artificial sweeteners safe with diabetes?
- Do I need to take supplements with diabetes?
- Can I control my diabetes with the foods I eat?

Who is the class for?

- ✓ For adults with diabetes who have questions about nutrition
- ✓ This session is offered every month; participants may attend as often as desired
- ✓ Participants will benefit from attending other classes that offer nutrition education such as: Diabetes the Basics, Heart Wise – Managing Cholesterol and Blood Pressure, Eating Well with Diabetes: Carb Smart and Dishing up for Diabetes

Note: Available in specific communities only.
Please call 1-877-314-6997 to register

Eating Well with Diabetes: Carb Smart

One, 2 hour session

Class Information and Objectives

Are you confused about carbohydrates? This session can help you become more carb smart and discusses:

- How many carbs should someone eat in the day?
- The Five Reasons Fiber is your Friend
- What is the Glycemic Index?
- How to read Nutrition Facts labels

Who is the class for?

- ✓ For adults with pre-diabetes, Type 1 or Type 2 diabetes
- ✓ Participants will benefit from attending Eating Well with Diabetes: Dishing up for Diabetes

Note: Available in specific communities only.
Please call 1-877-314-6997 to register

Eating Well with Diabetes: Dishing up for Diabetes

One, 2 hour session

Class Information and Objectives

Healthy foods can taste great too! Come prepare and enjoy eating a healthy recipe with a Registered Dietitian and other group members. Transform your plate to balance your meals for better diabetes control, and share your meal preparation experiences, ideas and tips for healthy eating with others.

This class will also discuss:

- The impact of fat and protein in foods on diabetes
- How do we define healthy eating?
- What are the barriers to healthy eating, and what motivates us to choose healthy foods?

Who is the class for?

- ✓ For adults with pre-diabetes, Type 1 or Type 2 diabetes
- ✓ Participants will benefit from attending Eating Well with Diabetes: Carb Smart

Note: Available in specific communities only.
Please call 1-877-314-6997 to register
