

A hospice is a resting place
for those on a journey.

"It takes a community to
provide care at the end of
someone's life.

It's time to ask ourselves:

How can I help?

Let's share the care."

Peter Mansbridge,
Past Honorary Chair
National Hospice Palliative Care

Camrose and District**

**"You matter because
of who you are.
You matter to the last
moment of your life."**

Dame Cicely Saunders
-pioneer in the field of palliative care

Death is an inevitable part of life
for all of us.

Have you considered:

- How you want to be cared for
during the last days of your life
- How you would wish a loved one
to be cared for
- What support you may need

Are you aware that you may
have options to think about?

What is Hospice Palliative Care?

Hospice palliative care is supportive
care offering comfort to those who
are living with a life threatening
illness, and to their loved ones.

THE aim is to relieve suffering and
improve quality of life.

The society trains volunteers to
support those who are terminally ill,
their caregivers, and those who are
grieving.

The Hospice Society of Camrose and
District is working TOWARD meeting
the needs of these individuals in our
community. The society's goal is to
support a hospice home in Camrose.

Hospice care is family-centered

Our Vision:

To provide compassionate holistic
care to those who are dying and to
their loved ones.

Friends are welcome

Our Mission:

To enable our community to
support those facing advancing
illness, death and bereavement,
with dignity – through education
and compassionate care.

We Believe There Is a Need
for a free-standing hospice to
offer physical, social, emotional,
and spiritual care in a community-
based, home-like setting.
